DARRELL DAWSEY: Crofts assertion was the first time the Governors Office was implicated in the decision to

tion and taken off the investigation by his EPA superiors. It was only after a lead scientist from the EPA an

switch to the River. After Virginia Tech released its results, state officials continued to claim that the water wa

d a volunteer team of researchers from Virginia Tech University conducted a study of Flints water supply and c

s safe overall. But they began to talk about the issue of the aging infrastructure. For example, on September 21

oncluded that it was unsafe that the Snyder administration came clean about the poisoned water supply but no

st, the MDEQs Brad Wurfel told MLive Flints water supply "presently meets all state and federal water quality s

t before the Michigan Department of Environmental. Quality had tried to discredit the research findings of the g

tandards," but added that "homes with lead service connections and lead plumbing always have been imparting

roup. As one of the volunteers, Siddhartha Roy, pointed out in an interview with Sonali Kolhatkar, we were surp

some part-per-billion of lead, which is a concern." Focusing attention on infrastructure. was a way to avoid add

rised and shocked to see [the government] downplaying the effects of lead in water, ridiculing the results that a

ressing the root of the crisis, which was the states fateful decision to switch to the River and its subsequent m

ll of us had released, and even questioning the results of a local pediatrician. They tried to discredit us research

ove to not use corrosion control, a \$100-per-day expense. But those supposed savings led to unimaginable cos

hers. But it was too late. The scientists may have been vindicated, but not before close to 9,000 children under

ts. On September 24th, a pediatrician from Flints Hurley Medical Center, Dr. Hanna-Attisha, released a study o

the age of 6 had been poisoned. Historical Memory and the Politics of Disappearance These acts of state-spon

f thousands of health records. The study showed there was a direct link between the switch to the FLINT Riv

sored violence have reinforced the claim by the Black Lives Matter movement that Snyders actions represent a

er and the elevated blood lead levels of children. DR. MONA HANNA-ATTISHA: We looked at all children und

racist act and. that it is part of systemic, structurally based brutality and that the water crisis would never have h

er the age of five years. We looked at their lead levels pre-switch, and then we looked at blood lead levels post

appened in more affluent, white communities like Grand Rapids or Grosse Pointe, as Susan J. Douglas has po

-switch. For children five years and below, the percentage of children with elevated blood lead levels in FLINT

inted out. Poor people of color suffer the most from such practices of environmental racism, and poor Black and

was 2.1 percent, and then post-switch the percentage was 4. So, a doubling. And that was statistically signific

Brown children in particular suffer needlessly, not just in FLINT, but also in cities all over the United States. T

ant. DARRELL DAWSEY: Confronted with that evidence, the state launched yet another attack. A spokeswom

his is a crisis that rarely receives national attention because most of the children it affects are Black, Brown, po

an for Governor Rick Snyder wrote in an email that the Hurley data had been "spliced and diced." The Michigan

or and powerless. Some health experts have called lead poisoning a form of state-sponsored child abuse and a

Department of Health and Human Services also jumped in, saying the states data was "not in line" with Dr. Ha

silent epidemic in America. As Nicholas Kristof makes clear: In FLINT, 4.9 percent of children tested for lead

nna-Attishas results. Those attempts to discredit Dr. Hanna-Attishas work quickly fell apart. The Detroit Free Pr

turned out to have elevated levels. Thats inexcusable. But in 2014 in New York State outside of New York City

ess compared the states data with Dr. Hanna-Attishas results and found that the states own data showed that t

, the figure was 6.7 percent. In Pennsylvania, 8.5 percent. On the west side of Detroit, one-fifth of the children t

here was a higher percentage of kids in FLINT with elevated lead levels in their blood after the switch. In fac

ested in 2014 had lead poisoning. In Iowa for 2012, the most recent year available, an astonishing 32 percent o

t, according to records obtained by Virginia Techs Professor Edwards, the state Department of Health and Hum

f children tested had elevated lead levels. (I calculated most of these numbers from C.D.C. data.)Across Ameri

an Services had detected a significant spike in the lead blood levels of FLINT children in the months immedi

ca, 535,000 children ages 1 through 5 suffer lead poisoning, by C.D.C. estimates. We are indeed all FLINT, s

ately following the changeover. PROTESTERS: Lead-free water now! Lead-free water now! Lead-free water n

ays Dr. Philip Landrigan, a professor of preventive medicine at the Icahn School of Medicine at Mount Sinai. Le

ow! Lead-free water now! DARRELL DAWSEY: Finally forced to take some action, the state held a press conf

ad poisoning continues to be a silent epidemic in the United States. This is a manufactured crisis parading as a

erenceone that FLINT residents werent allowed to attend. EPA warnings werent enough. The Virginia Tec

cost-cutting measure under Republican and Democratic parties that supported neoliberal-inspired austerity me

h study wasnt enough. The Hurley study wasnt enough. State officials continued to deny the rivers role in Flints

asures and aggressive deregulation. it is also the toxic byproduct of a form of predatory neoliberal capitalism t

lead crisis. DAN WYANT: Now, from my standpoint as director of the DEQ and our responsibility, whether the

hat places profits above all human needs and social costs. As Rosner and Markowitz argue, the poisoning of B

water comes from Detroit or whether the water comes from the River, we still have the same issue. DARREL

lack and Latino children represents a broader political and economic crisis fed by a mix of racism and corporate

L DAWSEY: Wrong. On October 7th, a panel of experts, formed earlier in the year by Flint's former mayor and a

greed that have put lead and other pollutants into millions of homes in the United States. But pointing to a mix o

previous emergency manager, held just its third meeting. In a small conference room crowded with media, the

f racism and corporate greed does not tell the entire story either about the crisis in or the broader crisis of env

experts recommended that switch back to the Detroit system, in order to protect its residents from further har

ironmental racism. And solutions demand more than fixing the nations infrastructure, replacing the countrys lea

m. On October 8th, six months after LeeAnne Walters learned that her child had lead poisoning, eight months a

d pipes, curbing the power of polluting corporations or making visible what amounts nationally to a public health

fter the EPA began raising concerns, and 16 months after the river water began causing massive infrastru

crisis. FLINT suffers from a much broader crisis of politics, agency, memory and democracy that now haunt

re damage and irreparable physical harm to residents, Governor Rick Snyder finally announced that he would a

s the future of the United States with the threat of an impending authoritarianism.The Politics of Domestic Terro

allow to return to the Detroit system. The governor also insisted that there was no reason to assign blame to th

rism Snyders decision to keep quiet for over a year about the contaminated water was comparable in my view t

e completely avoidable man-made disaster. Howard Croft, the director AIDE: Sara, can I see you for one sec

o. an act of domestic terrorism a form of systemic intimidation and violence done by the state against powerles

ond? CURT GUYETTE: One more question. Howard Croft, the director of public works for in a recent interview

s people. Historical memory might serve us well here. Not only is terror one of the United States chief exports

w, said the decision to switch to the River came out of the Governors Office. SARA WURFEL: I cant address

, but it is also a part of a long legacy that extends from the genocide of indigenous peoples and the violence of s

that at all, in fact, because at the time you'll go back to the history of this, of the community very much wanting t

lavery to racist police shootings of unarmed black adults and youth and males and females in Chicago Charlot

o switch to a new water authority, making the switchthe Detroit Water and Sewerage Department at the time, b

te, and. New York. What is happening in is an expression of a broader narrative, ideology, set of policies and v

ack last spring, saying, "Hey, were going. to cut you off." UNIDENTIFIED: Thats a lie. CURT GUYETTE: So, t

alues bound up with a politics of disposability that has become one of the distinctive features of neoliberal capit

hats a yes-or-no question. DARRELL DAWSEY: Snyder wasnt the only official saying there was no need to pla

alism. Disposability has a long history in the United States but it has taken on a greater significance under neol

ce blame. Darnell Earley, now the emergency manager over Detroit Public Schools and the man who signed th

iberalism and has become an organizing principle of the authoritarian state, one that has intensified and expan

e letter rejecting Detroit's offer to keep selling water to echoed the governor's words. DARNELL EARLEY: But

ded the dynamics of class and racial warfare. Privatization, commodification and deregulation are now merged

I dont want to focus on what happened back in 2013. I think its important that we mobilize all resources that we

with what historian David Harvey has called the process of accumulation by dispossession.' Extracting capital,

can to fix the problem. DARRELL DAWSEY: But all resources werent being mobilized, prompting newly electe

labor, time, land and profits from the poor and powerless is now a central feature of austerity in the age of prec

d Mayor Karen Weaver to declare a state of emergency. MAYOR KAREN WEAVER: Im looking for help from

arity, and has become a first principle of casino. Buchheit rightly labels the ultra-rich in the United States as th

the state, and were looking for help from the FEDERAL GOVERNMENT. I feel like we have no other option b

e real terrorists who buy off politicians and lobbyists responsible for making poor children disposable, gutting th

ut to reach out and ask for help. DARRELL DAWSEY: The FLINT water crisis began to draw broad national

e welfare state, enabling billionaires to hide their wealth in offshore accounts, corrupting politics, militarizing the

and international media attention. On December 29th, a task force, that Snyder had appointed in response to m

police and producing a war culture. In addition, they fund populist movements that embrace hate, racism, milita

ounting pressure, reported its initial findings from its investigation into the states handling of the crisis. "What is

rism, Islamophobia, ignorance, xenophobia and a close affinity to the racial politics of fascism. War and terror a

disturbing about [the] MDEQs responses," the letter read, "is their persistent tone of scorn and derision. In fact

s a form of state violence are part of the regime of cruelty let loose upon the children and adults of FLINT, re

," the letter continued, "the MDEQ seems to have been more determined to discredit the work of others, who ul

vealing all too clearly how in an authoritarian state the move from justice to violence becomes normalized, with

timately proved to be right, than to pursue its own oversight responsibility." On the day that letter was issued, M

out apology. What the FLINT catastrophe reveals is a survival-of-the-fittest ethic that replaces any reasonab

DEQ Director Dan Wyant and his chief spokesperson, Brad Wurfel, both resigned. Three weeks after Mayor W

le notion of solidarity, social responsibility and compassion for the other. FLINT makes clear that rather than c

eavers state of emergency declaration, Governor Rick Snyder issued his own, on January 5th, 2016, at last op

onsidering children its most valuable resource, contemporary neoliberal society c

ening up the door to federal relief. By the time of the governors State of the State address in January 2016, the

people of FLINT had been drinking water contaminated with lead for nearly two years. People in the city still

couldnt drink the water. ANNOUNCER: Members of the joint convention, the governor of the state of Michigan

, Rick Snyder. GOV. RICK SNYDER: Tonight, I will address the crisis in FLINT, first and in depth. Let me wa

lk you through the facts. Tonight Im releasing a comprehensive timeline of the steps weve taken and the action

s underway to solve this crisis. First, this crisis began in the spring of 2013, when the City Council voted seven

to one to buy water from the Karegnond
